CAREER OBJECTIVE

Full-Stack Developer with expertise in building scalable and efficient applications. Passionate about integrating advanced technologies to create seamless digital experiences. Focused on improving user engagement and driving digital transformation.

EXPERIENCE

SoftDigits   **Dec 2023 — Feb 2024**
Full Stack Web Developer Intern
- Designed a **hybrid authentication system** combining graphical and traditional login for better security.
- Built a **microservice architecture**, integrating **MERN** stack and the Python-based **GAN API** for dynamic image generation.
- Improved security by reducing unauthorized access by **30%** and enhancing user trust.

Freelancing   **Dec 2022 — Mar 2023**
App Developer
- Built a **cross-platform** eCommerce app using Flutter and Firebase for real-time product and order management.
- **Optimized app** performance, enabling faster load times, secure authentication, and smooth user interactions.
- Boosted user engagement by **25%** and accelerated transaction speed by **40%**, enhancing overall efficiency.

PROJECTS

Track Soft - [**Source Code**]
- Developed an **employee tracking system** using MERN stack and Python-based screenshot automation with **Cloudinary**.
- Optimized API performance by **70%** for real-time tracking and a smoother user experience.
- Boosted employee accountability by **20%**, enabling data-driven workforce management and productivity gains.

Skill Code - [**Live**]
- Built a learning platform with **MERN stack**, using **Redux** for state management and Tailwind CSS for a responsive UI.
- Optimized **role-based** experiences, enabling seamless interaction between students and instructors.
- Boosted user engagement by **30%**, improving education quality and fostering collaboration.

Portfolio Website - [**Live**]
- Built a dynamic site with HTML, CSS, JavaScript, and a Node.js-MongoDB backend for seamless content management.
- Integrated **interactive animations** to showcase my developer journey, enhancing storytelling and engagement.
- **Improved personalization**, making the portfolio visually compelling and effective in highlighting skills and experience.

SKILLS

Programming	**C/C++**, JavaScript, Python, Dart
Frontend	HTML, CSS, **React,** Redux, **Tailwind**, Bootstrap, Flutter
Backend	Node.js, Express.js, SQL, **MongoDB**, Redis, Firebase
Tools	Git, GitHub, Postman
Soft Skills	Problem-Solving, Critical Thinking, Collaboration, Leadership

EDUCATION

Bachelor of Engineering, Computer Engineering, Mumbai University, CGPA: **9.395**   **2021 — 2025**
Class 12th Boards, Sudhagad Education Society, Percentage: **86%**   **2019 — 2021**

AWARDS & HONORS

- **Winner** of **Algorithm 8.0 Hackathon**
- Completed **Hacktoberfest 2024**
- **7th Position** in **Internal Smart India Hackathon**
- **Top-tier Academic Performance**
